The Final Dissemination Conference of the D-ACTIVE Project – Florence (ITALY)

The Final Dissemination Conference of the D-ACTIVE project took place on the 28th of September 2012 at Palazzo Vecchio – Salone dei Dugento in Florence, Italy.

After the welcoming of Patrizia Giorio (Co&So) and Raffaele Uccello (City of Florence), all the partners have taken part actively to the conference:

- Presentation “Innovation in the social services in favour of persons with disabilities” (City of Florence, Italy)
- Presentation “The D-ACTIVE ICF tools” (Co&So Firenze, Italy)
- Presentation of the D-ACTIVE EDU-PILOT course:
- “A new way of updating personnels in the services – impact” (Jugend am Werk Steiermark GmbH, Austria)

- “Active Citizenship – An example of active citizenship in services for persons with disabilities” (Valencian Institute for Disabled People and Social Action, Spain)
- “E.C.M. – D-Active course – An example of accreditation for professionals” (Regione Veneto, Italy)
- Presentation of the CITY – COURSE: “How to train persons with disabilities in the field of active citizenship” (Conseil Général du Val de Marne, France)
- Presentation “The dissemination in D-ACTIVE project” (Universitatea din Pitesti, Romania)

The participants (most of them were educators, social workers, operators, teachers or other educationalists working with the disabled people) were particularly satisfied with the conference

and the agenda. The venue, the attendance and the positive comments about the conference convinced them that the project had been a success. The conference had given useful tips and provided a forum for fruitful discussions.

Conclusion of the projects and future perspective

The project, which will finish on the 31th of October 2012, was a great success. Partners learnt a lot about the services for persons with disabilities in different European countries and also learnt useful skills to their own organization, such as how to manage and implement a European project.

The partners, therefore, have decided to keep in touch and to continue the work on D-ACTIVE through the use of D-ACTIVE materials and their dissemination.
